Sustainability

We're playing our part to make a positive difference to the planet...and you are helping by utilising our low impact estate.

In addition to our solar farm, onsite vegetable garden and other waste reduction initiatives, we are planting trees to future proof our region.

The paddock to plate experience is central to every menu at voco Kirkton Park, including the signature cocktail list which includes produce from the estates veggie garden and highlights the flavours of local distilleries.

Our estate stables are home to fulltime food waste managers- pigs and chickens- who provide end to end waste reduction for the estate.
